📍 Patna, India (Remote)

## IMPACT HIGHLIGHTS

**$M+ Revenue**
Products driving enterprise renewals

**2,500+ Users**
Across Fortune 500 companies

**75% Automated**
Code generation framework

**12 Team Members**
Built blockchain practice from scratch

**150+ Apps**
Legacy systems modernized

### Professional Summary

Results-driven Senior Software Engineer with 8+ years building enterprise products that drive revenue and operational efficiency. Proven track record of reducing development cycles by **95%**, architecting solutions serving **720+ C-level executives**, and leading technical initiatives from inception to production. Three-time national coding champion with expertise in microservices architecture, AI/ML integration, and blockchain technologies. Seeking remote senior engineering roles to leverage deep technical skills and leadership experience.

## PROFESSIONAL EXPERIENCE

### Senior Software Engineer | Gartner

*Feb 2023 - March 2025 | Remote*

Spring Boot, React, PostgreSQL, AWS, ChatGPT, Elasticsearch

**Product Ownership & Revenue Impact**

- Owned cybersecurity benchmarking platform serving **720+ CISOs** with **2,500+ delegated users**, becoming primary driver for **15+ enterprise renewals**
- Integrated ChatGPT for AI insights, automated **500+ quarterly reports**, generated revenue worth millions

**Engineering Excellence**

- Architected code generation framework with 22 templates, auto-generating **75% of application code** with OWASP-compliant security
- Enabled migration of **150+ legacy applications** across 15 teams to modern Spring Boot/Angular stack
- Built engineering dashboard reducing leadership meetings by **90% (1.5hrs → 15min)** across 24 projects

**Technical Innovation**

- Pioneered GenAI-powered test automation achieving **85% coverage**, reducing maintenance by **67%**
- Developed enterprise Maven libraries for 24 applications used by **45+ developers**

## EDUCATION

**B.E. Computer Science**
B.V. Bhoomaraddi College
Hubli | 2012 - 2016

## SPEAKING

• Genesis DevCon Speaker
• 4-day Blockchain Workshop
• Enterprise Tech Talks
• Microsoft Research Certification

## Senior Software Engineer | Upland Software

*Nov 2021 - Nov 2022 | Remote*

Java, Angular, Microservices, PostgreSQL

- Maintained critical SaaS platform serving **20,000+ daily users** with **99.9% uptime**
- Led "Run-the-Business" team ensuring application stability through real-time debugging and performance optimization
- Reduced bug resolution time by **40%** in decade-old complex codebase through systematic approach

## Lead Full-Stack & Blockchain Developer | Curl Tech

*Feb 2019 - Aug 2021 | Bengaluru/Remote*

Spring Boot, Python, Kafka, Hyperledger Fabric, Redis

### AI Platform Development

- Orchestrated **11 ML models** (Python/Julia) processing **1,000+ documents/night** at **99% accuracy**
- Developed offline PWA on edge devices (Raspberry Pi) for low-bandwidth ship environments
- Platform success led to formation of **Curl HG** as dedicated company

### Blockchain Leadership

- Built blockchain practice from **0→12 members**, reporting directly to CEO
- Architected Hyperledger Fabric-based asset tokenization platform for real-world assets
- Implemented self-sovereign identity using DIDs/Verifiable Credentials for multi-party authentication

## Full-Stack Developer | KPIT Technologies

*Sep 2016 - Nov 2018 | Pune*

Angular, Node.js, Spring Boot, MySQL

- Co-created Java Productivity Accelerator generating **75% of code** automatically with 22 templates
- Enabled migration of **100+ LotusScript applications** to modern Angular/Node.js stack
- Reduced server load by **60%** through caching, OAuth 2.0, and pagination optimization
- Mentored team of 8 developers on framework adoption and enterprise best practices
